Equine Wellness Test

#### **JENNY CUNNINGHAM, US – 'BINGO'**

Here is Bingo a 7 weeks ago. I'm actually in shock with the difference. He is super hard to keep weight on, he is also super sensitive to EVERYTHING! When he was clipped this is what his coat looked like. Super dull and patchy. I had to make significant changes to his diet and supplements and I'm happy to finally see a big change.

His coat has never been great since the day I got him.

I think the @sporthorseessentials has made a huge difference along with diet change and @pinpointequine supplements! (This is not an ad and I am not sponsored by either of these companies, I'm just so happy to see such a great change in my horse.

He is also feeling so soft and full of energy! Yay!
